CAREER SUMMARY

I am a dedicated and detail-oriented Bachelor of Science in Information Technology (BSIT) graduate from Eulogio "Amang" Rodriguez Institute of Science and Technology (EARIST). I possess a solid background in computer systems, software development, database management, and IT support. My professional journey began at Comptrolla Technologies as an intern, where I gained valuable hands-on experience through real-world projects. Recognizing my performance and commitment, the company hired me as a full-time Junior Software Developer. While my official role is Junior Software Developer, my main expertise lies in Frontend Development, where I work closely with the team to create user-friendly and visually engaging interfaces. I am passionate about continuous learning and driven to apply my technical expertise and growth-oriented mindset in a forward-thinking and innovative organization.
